Community and Technical College

N/A

In 2020, UAA launched a consensus-based, deliberative process to identify the key skillsets that help students achieve academic and post-graduation success. After a year-long process that included

competencies through curricular (e.g., courses), co-curricular (e.g., internships, conferences), and extra-curricular (e.g., student clubs) learning experiences.

After the stakeholder-based process in AY20, UAA conducted a pilot project focusing on the core competency of Personal, Professional, and Community Responsibility (PPCR). This decision was based on input from the 2020 Annual Academic Assessment Retreat.

Question #1 below is designed to engage program faculty in thinking about how they can or already do promote student learning in this core competency.
o

(500 characters or less)
The students would answer that Personal, Professional, and Community responsibility is emphasized in the majority of the Core Courses in the Industrial Process Instrumentation Program.
for the narrative report.

Other

No changes were implemented in AY21.
