2022 ANNUAL ACADEMIC ASSESSMENT REPORT FORM  
(Due October 15 to the dean)

The Faculty Senate Academic Assessment Committee (AAC) is committed to a vision of assessment that leads to continuous program improvements and benefits students. Annual assessment reporting informs decision making and resource allocation aimed at improving student learning and success. It also

## PROGRAM STUDENT LEARNING OUTCOMES

2.

Metric	Definition	Rationale
ANNUAL RETENTION 1 <sup>ST</sup> TO 2 <sup>ND</sup> FALL	Traditional measure of the % of first-time, full-time associate and baccalaureate degree-seeking freshmen who enter in a given fall term and return the following fall. Data source: UA System Warehouse RTP/DEDMGR end-of-term freeze files. Disaggregate as per accreditation on an annual basis.	Following the student from the 1 <sup>st</sup> fall to 2 <sup>nd</sup> fall can indicate ongoing connections and support inside and outside of the classroom are motivating students to return to continue their studies at the institution. Continuing enrollment is a key factor in completion.
SEMESTERS TO DEGREE ± GRADUATE PROGRAMS	The average number of semesters taken by students to complete any graduate degree or graduate certificate program. Determined by students who have graduated from a graduate program as their primary degree. 5-year trend. Data source: UA System Warehouse RTP/DEDMGR end-of-term freeze files. Disaggregate as per accreditation on an annual basis.	Looking at the number of semesters graduate students take to complete their degrees illustrates how students progress through their degree programs (full-time, part-time, stop-out). This information on student behavior and completion can inform program structure and help the institution support students in a way that honors the time needed for rigorous intellectual engagement and growth and also ensures that students can complete in a timely manner.

9. Do you have any examples of post-graduate success you want to highlight? For example, major scholarships, the percent of students who pass licensure examinations, the percent of students accepted to graduate programs, the percent in post-graduation employment in the field or a related field. (750 characters or less)

Our examples of post-graduate success have been very encouraging. While we have only had three PCE μ š • U } v } ( š Z } • PCE μ š • Á • % š ] v š } o • l t t D / [ • u } • s and another student is mid-application cycle but has received secondary application requests from multiple schools. Also of note is that in the current medical school application cycle, two of our students received secondary application invitations despite having baccalaureate GPAs lower than generally allowed by medical school admissions (ie. below 2.9). This indicates that academic success in our certificate program can demonstrate improved academic ability from the lens of medical school admissions.
